

Saving Time & Money

We provide a single source for you to manage your driver files. Incoming applications are examined and approved before you see them, and alerts on expiring medical cards or drivers licenses are generated automatically.

Click Click... You're Hired!

All the information you need to run your business is at your fingertips. We manage all aspects of your driver files automatically, ensuring you remain compliant with all DOT laws and regulations, that your files are always up-to-date, and any additional paperwork is easy to access right from our Dashboard.

About Us

We have a combined total of 60 years of experience in the Department of Transportation and all of the relevant laws and regulations that impact your business. Let us put that experience to work for you.

TRACEY MCQUILKEN

Tracey has dedicated 30 years as a DOT/FHP Compliance Investigator. Her years as a State Law Enforcement Investigator were dedicated to the investigations squad, which enforces Federal and State regulations for the Motor Carrier Compliance division for interstate and intrastate carriers. She has been an instructor for University of Florida IFAS Center and taught seminars for the private sector, including insurance companies and individual trucking companies. Having recently retired, she is now utilizing her experience to help all carriers avoid heavy fines imposed by her previous agency.

FRED SIMCIC

Fred is a trucking specialist with more than 28 years of experience in the trucking fuel and mileage tax industry. He owned Truckers Accounting & Permitting Service for 28 years, and developed online programs such as TripSheetsOnLine.com to help companies and drivers get complete and correct trip information for filing fuel and mileage tax returns. He has beta tested several programs for states rolling out new fuel and mileage tax systems, as well as programs for the licensing and permitting of vehicles. Fred brings his extensive knowledge to Driversfilesonline.com.

Simplified. Automated. Multilingual.
